

# RedIron & Oracle Preferred Partnership

## The Cloud Solution Your Retail Operation Needs to Succeed

Migrate to OCI and unlock the ability to deploy  
exception customer experiences with RI Commerce

  
Increase  
operational  
efficiency

  
Proactively meet  
customer demands

  
Fast-track tech  
innovation

Having the wrong tech that locks you on-prem will hold your retail business back from growth. With RedIron, you'll be in command of every aspect of your critical infrastructure and have what you need to scale.

## OCI Migration

RedIron deploys comprehensive OCI migration services, accounting for security, performance, reliability and scalability.

- Specialized retail expertise enables us to map out your project from start to finish without common pitfalls.
- You'll receive an Impact Assessment to identify a clear roadmap, milestones and project methodology.
- The experts at Oracle keep your applications up and running so you can rest easy.

## RI Commerce

RI Commerce is a cloudnative, SaaS-based product enabling greater flexibility and agility in your tech stack to meet customer demands.

- Keep accurate track of inventory across your entire franchise and gain confidence in your strategy.
- Ensure safety and security of your data with flexible, rolebased authentication.
- With increased visibility into customer insights, engage with your customers when and how they want, delivering a flawless customer experience.
